

```
CREATE VIEW twentiethcenturymovies_view AS  
  
SELECT title, releaseyear FROM movie  
  
WHERE releaseyear <= 1999
```

The screenshot shows a PostgreSQL client window titled "MovieDb/postgres@PostgreSQL 16*". The interface includes a top toolbar with icons for file operations, query execution, and settings. Below the toolbar, the "Query" tab is active, displaying the SQL code from the previous block. To the right of the query editor is a "Scratch Pad" tab. At the bottom, the "Messages" tab is selected, showing the output of the query: "CREATE VIEW" followed by "Query returned successfully in 189 msec." The "Data Output" and "Notifications" tabs are also visible but empty.

```
1 CREATE VIEW twentiethcenturymovies_view AS  
2 SELECT title, releaseyear FROM movie  
3 WHERE releaseyear <= 1999  
4
```

CREATE VIEW

Query returned successfully in 189 msec.

Total rows: 24 of 24

Query complete 00:00:00.189
