

SELECT firstname, lastname FROM actor

ORDER BY lastname ASC;

The screenshot shows a database client interface with a top toolbar containing icons for file operations, filters, and execution. Below the toolbar, the 'Query' tab is active, displaying a SQL query. To the right of the query editor is a 'Scratch Pad' tab. Below the query editor, the 'Data Output' tab is active, showing a table of results. The table has two columns: 'firstname' and 'lastname', both of type 'text'. The results are ordered by 'lastname' in ascending order, showing 24 rows of actor data.

```
1 SELECT firstname, lastname FROM actor
2 ORDER BY lastname ASC;
3
```

	firstname text	lastname text
